# Rige

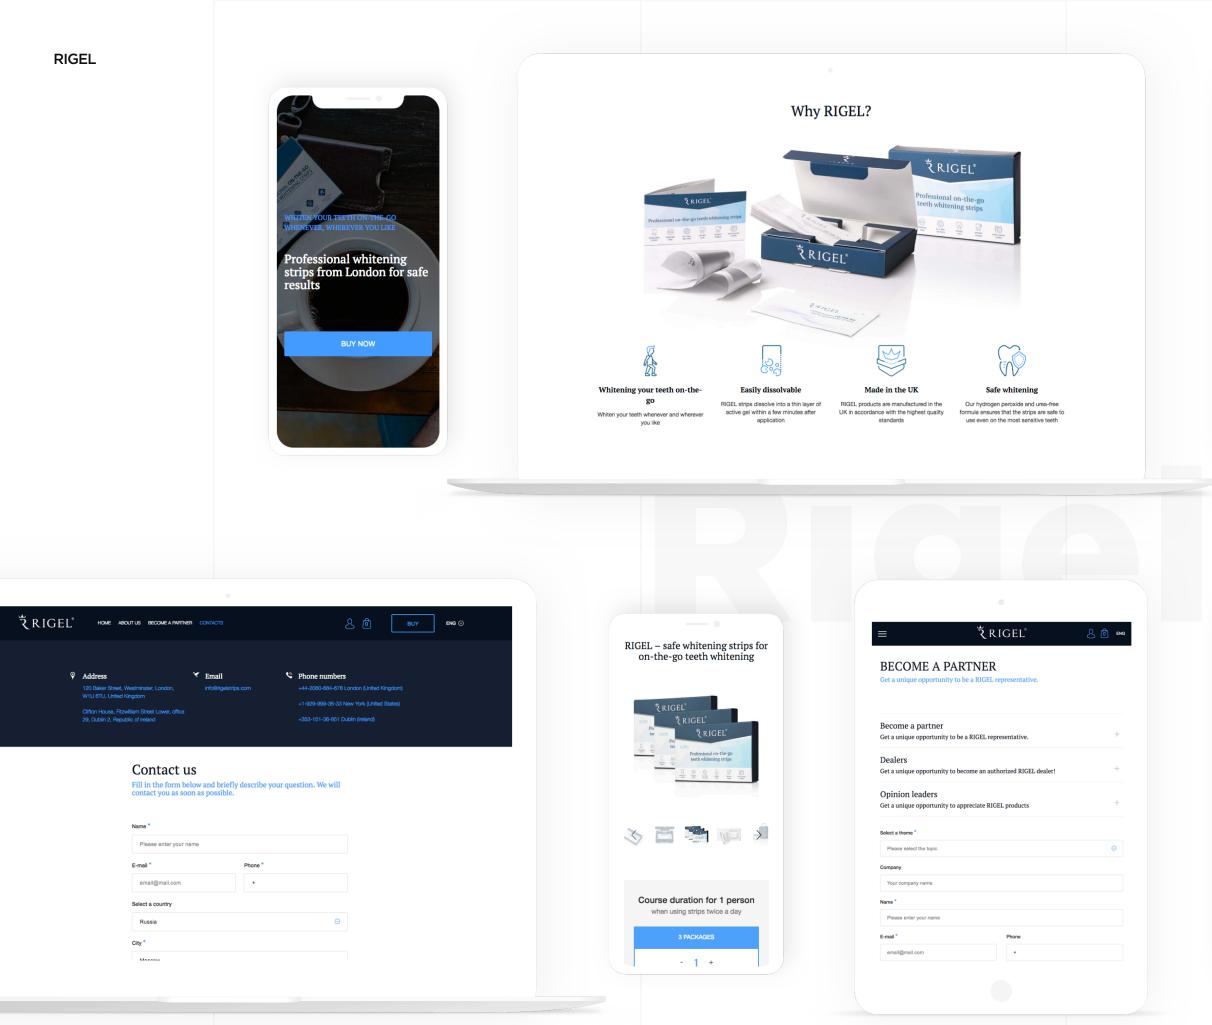

Rigel is an **online store** of teeth whitening strips.

## Goal

Our task was to freshen website up and assist with redevelopment from WordPress to Laravel framework. We had to create modern website based on existing Rigel branding.

### Results

We've ensured that the Rigel company appears as a leader within its niche, the brand is recognizable and frequently. Rigel turned into fully-functional multilingual website where users can purchase the products, use promo codes for discount, see the nearest points of sale.

## iPerHour

International **jobs platform** helping to find the right worker nearby.

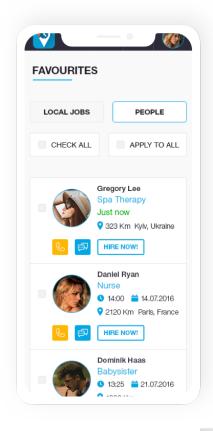

## Goal

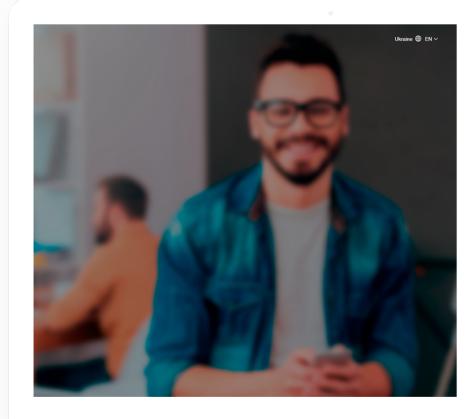

Client reached us out looking for someone who can give to his dated website some major facelift. Main requirement was to redesign the platform with clean, appealing and user-friendly design.

## Results

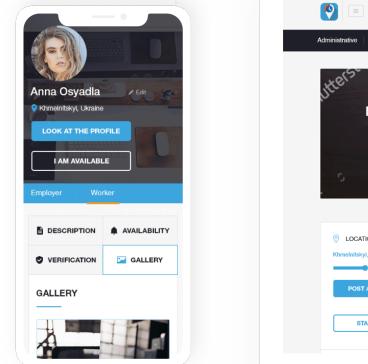

We have created modern design. Although it's not implemented yet, but we are sure that product will become really popular tool for job search.

# Parley

Everything you need for **music** enjoyment in one handy tool.

### Goal

Parley is our internal project. We knew how hard it is to find the perfect mobile player which has everything one may need, no excesses.

## Results

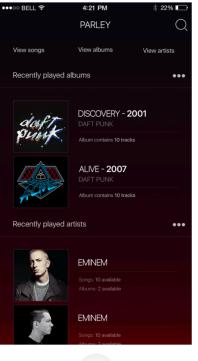

Development resulted in a player which perfectly matches users' music preferences and improves overall user experience, flawlessly.

## Russia Basketball

**Official Website** and **News Portal** of the Russian Basketball Association.

## Goal

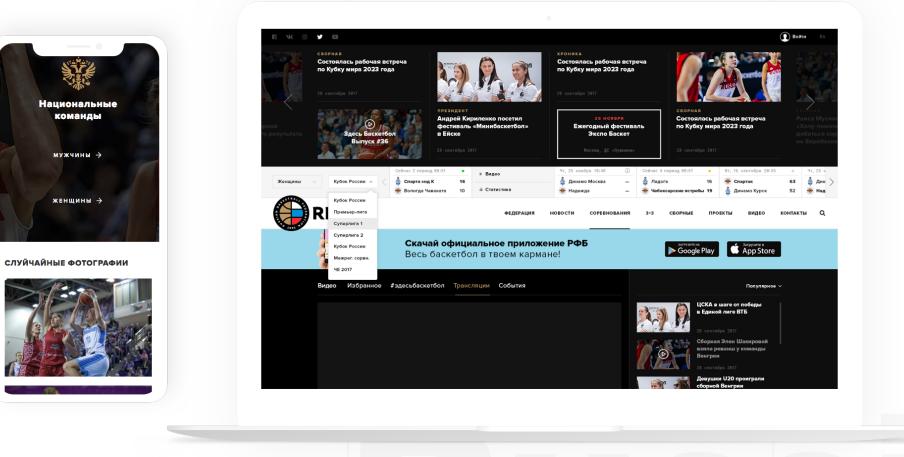

Our task was to reshape an existing basketball portal and make it mobile friendly. It included the general structural improvement, neat elements' placing and adapting the whole to run smoothly on any device.

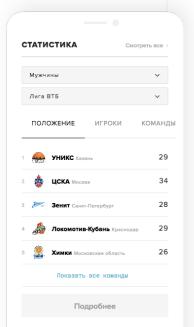

## Results

We've transformed this product into real basketball world where sport fans enjoy spending their spare time. We also make this portal look good on different devices so users can follow basketball news wherever they are.

## Onex

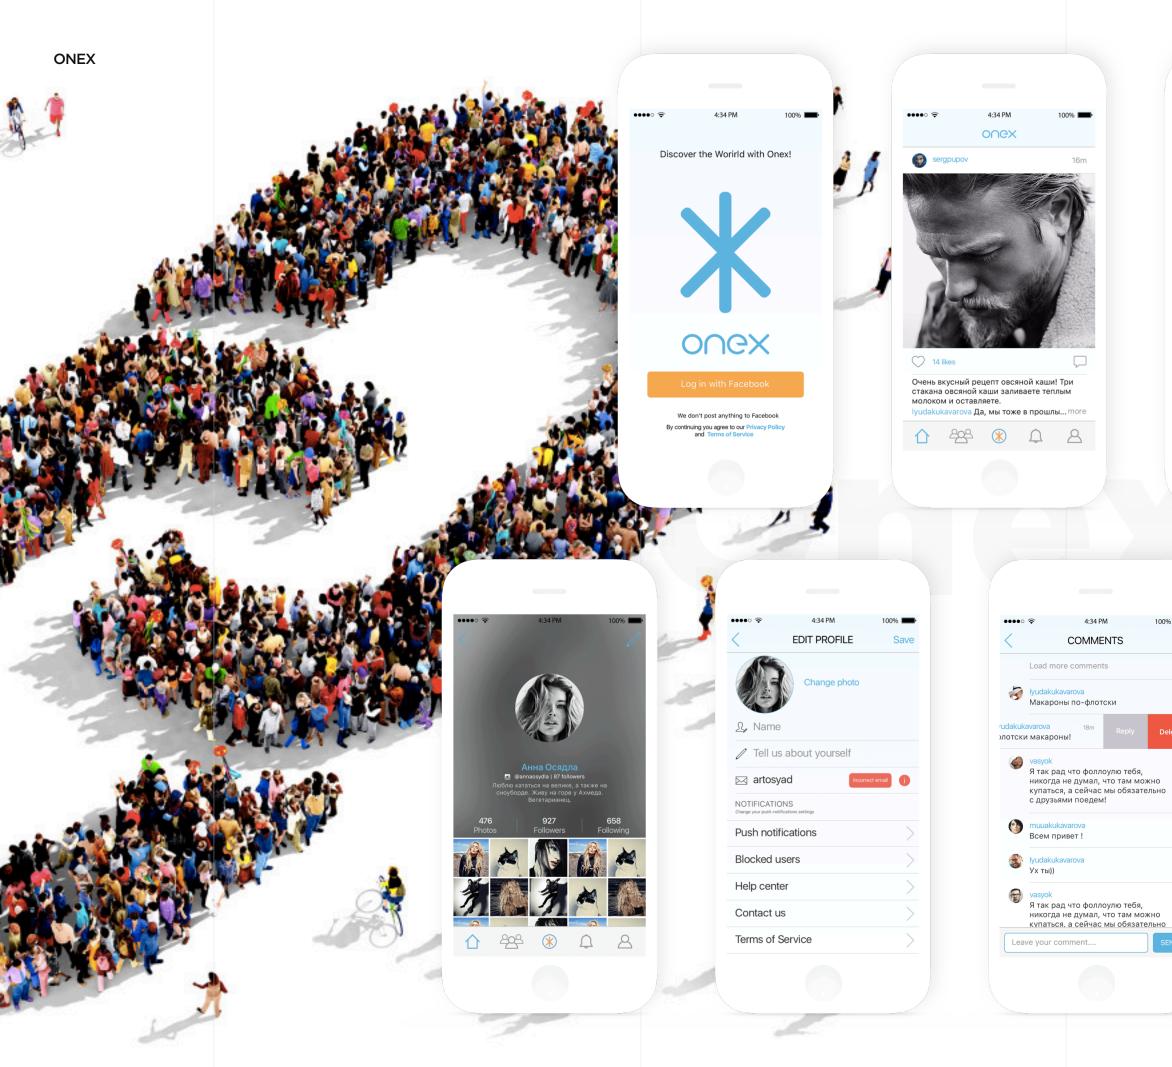

Application containing only **verified information** about people you adore.

### Goal

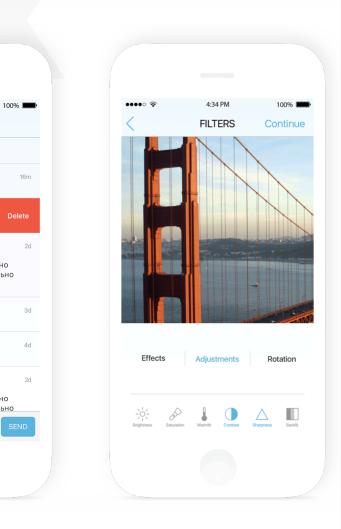

The focal point was a user's journey, ease of website navigation and joy of time spent both on desktop and mobile. The app was shaped to meet the 'Instagram with a subscription fee' requirement to provide users with verified information only.

### Results

We created a product which spoke of itself as of the new era in social networks.
